AMENDED

Traffic Alert

North Rillito Interceptor (NRI)
Sewer Rehabilitation Project

This is a series of traffic alerts that will be issued throughout the construction of the North Rillito Interceptor (NRI) Sewer Rehabilitation Project. These alerts will announce construction, detour and street closure information as it affects residents, businesses and traffic within the area. The 10-mile long NRI project is being completed in phases; **the current phase's construction boundaries are from Woodland Road to just east of Pantano Road.**

- **Beginning Tuesday, September 8, through 3 p.m. Friday, September 11, 2015** the left (inside) lane of *westbound* Tanque Verde, between Pantano and Woodland Roads, will be closed while the contractor replaces a portion of curb and completes landscape work along the center median. Eastbound travel will not be affected during this work
- **Beginning at 9 a.m. on Monday, September 14, through 3 p.m. Thursday, September 17, 2015**, the left (inside) lane of *eastbound* Tanque Verde, between Pantano and Woodland Roads, will be closed while the contractor replaces a portion of curb and completes landscape work along the center median. Westbound travel will not be affected during this work

Bicyclists and pedestrians should use caution when riding/walking through the area.
